

QUALITY POLICY

- Research Products International/Melford Labs. strive to be a premier manufacturer/ supplier in life science market by building strong, lasting relationships with our customers, suppliers and employees. By meeting and exceeding applicable ISO 9001/ ISO 22716 (GMP) regulations, customer requirements on product quality and delivery we create an environment where RPI/ Melford Labs, its suppliers and customers operate efficiently in a rewarding and progressive manner.
- We endeavor to apply high standards of quality, safety and environmental care to our business processes and activities. In order to achieve this vision, our quality, safety and environmental care system is constantly evolving. The risk based integrated system is designed to ensure our commitment to continuous improvement.
- We continually improve our business practices by maintaining a robust quality management system (QMS) through effective internal audits, analysis and reviews to achieve our objectives and improve our business practices. RPI/Melford Labs. is committed to establish, document, implement, maintain and improve its QMS to ensure product conformity, consistency and that the requirements of our customers are met and exceeded. RPI/Melford quality systems comply with the internal quality policy as well as with the international standards for Quality Management Systems as defined by the ISO 9001 and ISO 22716 (GMP). The systems are certified by ACM, an independent UKAS accredited third party registrar.
- RPI is committed to complying with all current and future regulations and legal requirements related to the purchase, handling, manufacture and disposal of hazardous chemicals and to the distribution of materials classified as dangerous for transport.
- Our approach to quality and commitment is fully communicated to all our employees, customers, suppliers and partners. The Management Team and all RPI/ Melford employees take full responsibility for the implementation of the Quality Policy within their departments.
